SUMMARY

Highly dedicated BSIT graduate (Cum Laude) with a strong focus on UI/UX design and frontend/web development. Experienced in building responsive, user-friendly web applications using HTML, CSS, JavaScript, and React, including an IoT monitoring dashboard and management systems. Solid foundation in frontend development with a growing interest in backend engineering. Committed to continuous learning and to delivering reliable, well-structured digital solutions.

TECHNICAL PROJECTS

ReForest: An IoT-Based Soil Analysis and Tree Recommendation System 2025 - 2026

for Reforestation

- Developed ReForest, an IoT-enabled system integrating machine learning, web, and mobile technologies to support data-driven reforestation planning.
- Handled IoT soil sensors backend using Arduino (C++) to collect real-time environmental data including soil moisture, temperature, and pH levels for analysis.
- Built a mobile application for monitoring soil data and delivering tree species recommendations to users.

Student Enrollment System 2024-2025

- Developed a CRUD-based web application using ASP.NET Core MVC with Microsoft SQL Server for managing student enrollment records and course data.
- Designed MVC architecture components and built responsive interfaces to streamline enrollment processing and record management.

EXPERIENCE

Rococo Global Technologies Co. (ServiceNow) - Jumpstart Program 2024-2025

- Developed components of a Task Management System using the Personal Development Interface within the ServiceNow platform.
- Implemented server-side and client-side scripting to automate workflows and enhance user interaction within application modules. Configured UI Policies and platform controls to enforce business rules and improve UX.

TECHNICAL SKILLS

Languages: Java, Kotlin, Python, PHP, C++, C#, JavaScript, SQL **Tools:** Git, Google Cloud Platform, Arduino
Frameworks: React.js, Tailwind CSS, Bootstrap, ASP.NET
Databases: Firebase Realtime DB, MongoDB, MySQL, MSSQL

EDUCATION

University of Cebu - Banilad Campus Cebu City, Philippines

Bachelor of Science in Information Technology | **Cum Laude** June 2026

- Dean's Lister (1st - 4th Year) | GWA: 1.6/1.2 scale
- Completed Capstone Project: ReForest est. 2025

CERTIFICATIONS

Cisco Networking Academy | University of Cebu - Banilad Campus

- CCNA: Switching, Routing, and Wireless Essentials January 2024
- CCNAv7: Introduction to Networks May 2025

AI Ready ASEAN | ASEAN Foundation & Google.org

- AI Learning Modules Certificate (12 hours) October 2025
